

3

Extreme Earth

English

Children will explore the theme of the history of the earth through narrative and illustrations.

They will present their understandings through a range of writing and drama activities.

To analyse and write effective narrative descriptions.

Children will develop story mapping skills to enhance their own story writing skills.

Maths

Add and subtract numbers mentally and using formal columnar methods.

Solve problems, including missing number problems, using number facts, place value and more complex addition and subtraction

Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables.

Measure, compare, add and subtract: lengths (m/cm/mm)

Science; Rocks

Children will discover the different types of rocks and how they are formed. They will compare and group rocks based on appearance and simple properties. They will learn how fossils are formed and learn about the contribution of Mary Anning to the field of palaeontology. Children will understand how soil is formed and then investigate the permeability of different types of soil.

Humanities; Extreme Earth

In this unit we will learn about the destructive powers of nature, from volcanoes and earthquakes to tsunamis and tornadoes. Through discussion and practical tasks, the children will learn about how and why these natural phenomena occur, and the ways in which they affect people and the environment.

R.E; Christianity

Looking at the stories of Blind Bartimaeus, Jairus' daughter, Zacchaeus and the Calling of Levi

DT; Juggling Balls

The children will design and make a circus themed juggling ball. They will learn about decoration techniques; getting the chance to use tie-dye and fabric paints. Finally, they will evaluate their product against design criteria.
